

Scholarship to Sixth Form, the academic year 2022/2023

Why does the Swedish School in London offer scholarships?

In Sweden, the student's home municipality pays for their education in Sixth Form. The student's school receives a grant from the home municipality, based on what a school place costs at the maintained school in that municipality. However, far from all municipalities agree to transfer the school grant to the Swedish schools abroad. Some municipalities agree to transfer the school grant for one school year only,

The purpose of our scholarship is, therefore:

1. To enable Swedish students, registered in a municipality that does not transfer the school grant to Swedish schools abroad, to study at the Swedish School in London.
2. To enable current exchange students to stay longer than they otherwise might have been able to at the Swedish School in London, regardless of which home municipality the student is registered in.

Who is eligible to apply?

In order to be eligible to apply for the scholarship, the student and his/her parent/s must be registered in a Swedish municipality that does not offer the school grant (skolpeng/programpeng) to be transferred to the Swedish School in London at all, or for a second or third school year. The applicant must have submitted an application for the full school year 2022/2023 for the scholarship application to be considered.

What does the scholarship cover?

The annual school fees for Sixth Form at the Swedish School in London is £11,340 for the academic year 2022/2023.

Student(s) receiving the scholarship will only pay £3200 in school fees for a whole school year (£1600 per semester). This is equivalent to what students receiving the school grant (skolpeng/programpeng) from their Swedish municipalities, pay in annual school fees.

In addition to this, the student is also invoiced for accommodation in one of the school's host families if they do not have approved private accommodation.
